## **Request for Oversight of a Brownfield Site**

The purpose of this application is to provide the Department of Toxic Substances Control and the Regional Water Quality Control Board sufficient information to determine which agency should provide oversight for the assessment or remediation of the site. This application is to be accompanied by the site information described in the document “**Site Information Needed for Oversight Agency Selection.**”

A Request for Oversight of a Brownfield Site may be submitted by any person, regardless of their relationship to the site. However, the person requesting oversight must possess all necessary rights and access to the site so that they can carry out any and all activities that the oversight agency may require in making its regulatory decision.

Site Name and other names by which the site is known:
